

HyRetin

Hyaluronic acid with **anti-acne** effect

Ester of very low molecular weight hyaluronic acid and retinoic acid. By combining effects of the two anti-aging ingredients we came up with a perfect derivative that can penetrate deep into the skin but remains safe and doesn't irritate the skin.

- * Anti-inflammatory properties
- * Sebum reduction
- * Pore reduction (both number and size)
- * Keeps all advantages of hyaluronic acid (anti-wrinkle, hydration)

HyRetin brings additional advantages to the skin:

- ✦ Increased production of collagen and fibronectin
- ✦ Doesn't irritate the skin
- ✦ Penetrates deep into the skin
- ✦ Skin elasticity and texture improvement
